Integrated Care Consultation Services

Deliver, Discover, Educate and Advance

Introduction to Individualized Services

The Integrated Care Consulting Team is part of the St. Louis Behavioral Medicine Institute (SLBMI). The team has experience in integrated care through clinical practice, supervision, training and research.

We believe that establishing an integrated-care approach and expanding mental health services in primary care involves cooperation and consultation at all levels. We provide training and consultation that involves collaboration with administrative leadership, medical providers, behavioral health providers, medical staff and any other members on your care team.

Better together.

Reach out to us today to discuss developing an individualized plan for you and your team to expand mental health services in primary care.

To take the first step, call 314-886-6911 or email SLBMITraining@uhsinc.com.

Learn more at slbmi.com/integrated-care.

Our Services

Consultation Site Visits

Provide support to medical providers and consultation to behavioral health centers, including live shadowing.

Didactics and Meetings

Facilitate training and networking opportunities for behavioral health centers.

Leadership Meetings

Troubleshoot implementation and sustainability barriers with administrative leadership and medical providers.

Recruitment Assistance

Assist administrative leadership and medical providers in recruiting, hiring and onboarding behavioral health professionals.

Administrative Consultation

Provide individualized and targeted consultation to advance behavioral health services.

Leadership Administration Consultation

Provide individualized and targeted consultation to optimize integrated care benefits.

How We Can Help

Better Health Outcomes

Integrated care can lead to earlier intervention, improved chronic disease management, improved patient care and fewer hospital visits.

Improved Productivity and Satisfaction

Integrated care can promote teamwork, reduce burnout, improve workflow efficiency and build a stronger sense of purpose and connection to the work.

More Cost-Effective Care

Integrated care can make financial sense to avoid waste and redundancy, prevent crises and complications, improve provider efficiency, improve patient adherence and engagement and align with value-based care models.

Seamless Communication with a Whole-Person Focus

Integrated care teams share information and collaborate in addressing patients' physical, mental and social needs, which can lead to more efficient and effective care.
